

SPEC: LSCUS-25-CM10058 REV: 00 DATE: 07.31.25

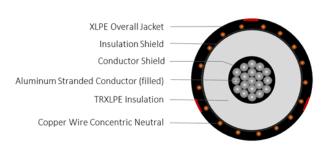

## TR-XLPE/CN/XLPE Power, MV-105 Type Primary UD, 35kV 100% Single Conductor Filled Aluminum - Silicone Free

#### **DESCRIPTION**

The Medium Voltage Underground Distribution (UD) cables consist of an aluminum filled conductor, covered with tree-retardant cross-linked polyethylene (TR-XLPE), a concentric neutral of helically applied copper wires, and a moisture blocked cross-linked polyethylene (XLPE) jacket with 3 extruded red stripes.

#### **APPLICATIONS**

- Suitable for underground primary power applications: direct burial or in duct.
- For wet or dry locations.
- Jacket is sunlight resistant.
- Excellent resistance to treeing
- Designed to operate continuously at a conductor temperature not exceeding
  - » 105°C for normal operations
  - » 140°C for emergency overload
  - » 250°C for short circuit

**SERIES U35ATX**
